Art Unit: 1724

In the previous Office action, Applicant was informed that since this application was filed without a claim numbered "24," claims 25-28 have been renumbered as claims 24-27, respectively, in accordance with 37 CFR § 1.126. The amendment filed June 17, 2005 fails to reflect this renumbering of claims. Applicant is advised that all future amendments must present claims with proper numbering.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to an apparatus for purifying water, classified in class 210, subclass 266.
- II. Claims 23-27, drawn to a method for removing debris and organics from urban run-off, classified in class 210, subclass 669.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus of Group I could be used in another method, different from that of Group II. For example, this device could be used to purify industrial wastewater, instead of urban run-off.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and divergent subject matter, and because the searches for the individual Groups are not coextensive, restriction for examination purposes as indicated is proper.

Art Unit: 1724

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
